Steel Fabrication Shop Welder Job Description: This position will report to the shop supervisor and must know how to properly use common welding tools, metal-working equipment, interpret blueprints/drawings, and perform layout & fit-up of parts. The Welder will interact with the shop supervisor and other team members to ensure that jobs are completed in a safe, consistent, accurate and timely manner.

Key Responsibilities:

- Use of FCAW welding equipment to manufacture parts and assemblies.
- Operate other necessary equipment and perform tasks to fabricate parts to specification.
- Layout and fit-up of parts to be welded.
- Ability to read/interpret blueprints/drawings.
- Inventory of parts and perishable materials.
- Ability to complete daily logs and PM forms.
- Report fabrication issues and assist with resolutions.
- Assist with other shop activities as necessary.

Skills/Qualifications:

- High School or G.E.D. equivalent.
- Welding Certification- FCAW preferred.
- Familiarity with creating/using jigs & fixtures.
- Ability to read engineering drawings and prints (i.e. blueprint drawing).
- Strong mechanical aptitude and ability to work with hand tools.
- Experience with metal-working tools.
- Possesses good communication skills and works well in a team environment.
- Positive and proactive attitude – fostering a team attitude.
- Attention to detail and quality of work.
- Willingness to step in and assist other team member with their work.

Other Requirements:

Applicant must pass a weld assessment test (aka. Qualification coupon) and performance evaluation test prior to hire.

Gerace is a 100% drug free workplace and a drug screen will be required prior to hire.
